REFERENCE LETTER FOR BUSINESS ACCELERATOR CONSULTING GROUP

The Business Accelerator Consulting Group Provided an ICT Consulting Services to Uganda Agribusiness Alliance in March – April 2019.

They designed and installed QuickBooks software in a very unique way. They were very keen to ensure that our reporting needs and wants are met and fulfilled and challenges faced and problems are addressed and solved. They benchmarked our reporting formats with that of various organizations with some of them aligned to the traditional accounting format of cost drivers and others aligned to strategic interventions (Themes, Pillars and Value Drivers).

What stucked us most was their responsiveness to our reporting needs and that personal touch they always give to their service. They have that speed of response and willingness to work faster to meet changing requirements.

We have no reservation in recommending them for ICT related assignments. Should there be any need for further clarity, please do not hesitate to get back to us, and we will be more than willing to do so.

Edward Katende
CHIEF EXECUTIVE OFFICER
Uganda Agribusiness Alliance
